

HOW TO COLLECT FOOD WASTE FOR COMPOSTING AT UNITY TEMPLE:

ONLY COLLECT FOOD WASTE IF YOU ARE WILLING TO WALK IT TO THE BINS BEHIND GALE HOUSE WHEN YOUR EVENT IS OVER OR TAKE IT HOME TO YOUR OWN COMPOST BIN.

1. The composting kit is in the kitchen and includes three attractive collection containers for you to choose from – one large and two medium.
2. Line the containers with a compostable biobag.
3. Put the containers out where you are collecting dishes and garbage at the end of your event. Tell your attendees that you are collecting fruit, vegetable, and grain food waste for compost.
4. Put the “what to compost” sign out with the containers. DO NOT collect meat, dairy, fish, or oils.
5. At the end of your event, remove the biobags from the containers and walk them out to the black compost bin behind Gale House. Toss the biobags into the compost bin and close the lid.
6. Return these directions, the collection containers, and the “what to compost” sign to the blue milk crate.
7. Congratulations! You just diverted waste from landfills and turned it into a valuable resource for our gardens. Feel good about yourself.
